

BNO Creativity & Cocktails Experiences

Instagrammy: We got together to snap a few pics BNO style in a giant Instagram photo frame. Lots of fun props and a printer nearby to run off the favorites helped make *Creativity & Cocktails* a night to remember.

Story String-Along: Writing one person and one sentence at a time, we crowdsourced an epic Mad Libs-esque tale on the conference room whiteboard—covering everything from frog princes to the meaning of life.

iPortrait: We let out our inner artists using iPads to create abstract self-portraits with an assortment of random objects (think Picasso with bananas and Barrel Monkeys).

UB the DJ: Guests and staff took control of BNO's music library using a retro DJ station to produce the perfect soundtrack to *Creativity & Cocktails*.

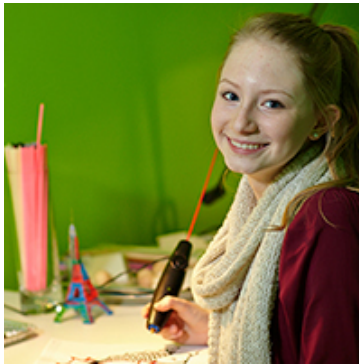

Mass Imagination: Guests and staff to let their imaginations run wild by drawing a fantastic creature or character for chance to see it transformed into a real plus toy by Budsies. Check back to see the top-voted designs. Each winner will be hand-made by Budsies and donated by BNO to a local cause.

Tree of Inspiration: Beginning with a hand-drawn trunk and leaves, we set a tree of inspiration into full bloom by adding inspiring ideas and quotes as leaves and roots with colorful chalk.

Genius Style Profile: Through a partnership with Personality Hacker, we explored some of our hidden strengths and weaknesses in an easy 5-minute survey. Click [here](#) to try it yourself.

3D Doodler: Gravity be damned! In this experience, we had guests and staff drawing in thin air to make some awe-inspiring sculptures with 3D Doodler pens. Click [here](#) to buy one for yourself.
